DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-10 and 12-20 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest the claimed invention. Specifically, the prior art of record fails to teach or suggest a log comparison debug support system which inputs a plurality of logs, the system comprising: a condition specifying device specifying begin and end events in a partial log and an extraction rule for extracting at least part of the event sequence sandwiched between the said events; creating a plurality of partial logs from the input logs according to the condition for log comparison and the extraction rule; creating a master log; creating a normalized log; computing feature value; and computing similarity between theses partial logs based on said feature value, as recited in independent claim 1, substantially similar to claims 8, 17, 18, 19 and 20.

The prior art of record, **Keyser**, disclosed a plurality of logs being compared to determine a similarity. However, **Keyser** failed to disclose the independent claims as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
